

# MLC VALUE MODEL PORTFOLIOS

Complete portfolio solutions aimed to provide investors with above-inflation returns through expertly managed, low-cost portfolios that blend the strengths of active and index management.

## Why invest in MLC Value Model Portfolios?

- ✓ Access MLC's deep asset allocation and portfolio construction investment expertise
- ✓ Access leading specialist investment managers and strategies from around the world in one portfolio
- ✓ Harness the benefits of managed accounts, offering you and your clients increased transparency and outsourced execution
- ✓ Efficiently meet your compliance and admin burden with professionally managed and monitored portfolios
- ✓ Enhanced client experience via practical client engagement tools and regular portfolio communications

## How are the portfolios managed?

- Asset allocation actively managed and driven by our proprietary Investment Futures Framework
- The portfolio is built with allocations to specialist active managers where we believe they add the highest value to portfolio risk or returns, combined with passive exposures to keep costs low
- Large cap Australian shares predominantly held directly to maximise the after-tax benefits available from individual ownership
- Alternative strategies are included to deliver additional diversification, risk management and return opportunities not strongly linked to traditional markets

## Where do we invest?

-  **Australian shares**
  - Large caps, passively managed and predominantly held directly
  - Dedicated, actively managed, small cap allocation
-  **Global shares**
  - Passive developed market exposures with active emerging market allocation
-  **Alternative assets**
  - Simple, daily liquid, real return strategy
  - how do you achieve daily liquidity for alternative assets?
-  **Real assets**
  - Exposure to global listed property and infrastructure assets
-  **Fixed income**
  - Global and domestic exposures
  - Allocating across core sovereign, investment-grade and high-yield credit, alternative income and absolute return strategies
-  **Cash**
  - Platform cash holdings
  - Managed to balance required liquidity and minimise performance drag

## Reporting and support

Our range of simple, easy-to-understand reports cover the latest portfolio performance, performance drivers, asset allocation, holdings, information on any changes to the portfolio and commentary on positioning.

Updates from the portfolio manager are available via regular webinars and video updates.

## Our Investment Futures Frameworks prepares your portfolio for what lies ahead

- A powerful and proprietary Investment Futures Framework helps make sure our portfolios are positioned to deliver risk-adjusted returns, for many possible global investment scenarios and market conditions
- A focus on opportunities for return and managing risk, carefully selecting long-term strategies, assets and managers to help our portfolios defend and grow
- It's not just set and forget – we actively monitor our portfolios to give investors what we believe are the best investment opportunities

### What are the risks?

All investments carry different levels of risk and these should be considered prior to investing.

Many factors influence an investment's value. These include, but aren't limited to: investment market sentiment; economic conditions; changes in inflation, interest rates or the value of the Australian dollar; company-specific issues; liquidity; risks associated with certain investment techniques, such as derivatives and currency management.

## Why do Australian investors trust MLC Asset Management?

### Over 35 years

managing portfolios using a multi-manager approach.

### Over \$146 billion<sup>2</sup>

in assets under management

### More than 100

investment professionals, both in-house specialists and those in external investment management companies. Our portfolios offer access to managers, experience and expertise most individual investors can't tap into.
